Artists: Paul Miller Presents:
Motion Blur

Title: One More Time

Release: 23.10.2008

About:

Paul Miller is someone special - we call him the busy bee of trance. Born in 1985, he started his adventure with music at the age of 8 when he got his first synthesizer. The last 2 years he is putting out high quality uplifting trance on different international labels. Now Paul is celebrating his first release on tetsuo, with "Motion Blur" he gave us a wonderful emotional Trancer and we just added a "bangin" "Daniel Kandi" remix.

"One more time" is gonna be a big club smasher around the globe, Armin van Buuren, Above and Beyond and other Key player hammering it already.
