

TETS-HYB 100 2XLC - Dante´s peak

Artists: 2XLC
Title: Dante´s peak
Release: Ende November

About:

We would like to introduce you 2XLC and his new sublabel on Tetsuo: "Tetsuo Hybrid". You already know 2XLC, you think? Off target. 2XLC is not the same as Talla 2XLC, even if they are both one person, one DJ, one producer. But "2XLC" is someone new - it's Talla's brand-new alter ego, that lets out his passion for the progressive trance electro-crossover. He calls it simply the "Talla-Crossover", because it is near and dear to his heart.

2XLC and Tetsuo Hybrid start with a harsh pumping tune called "Dante's Peak". The club mix rocks it all over - a loud tune that scrubs the dancefloor with pure, crude and honest sound that also contains appealing minimal features. The Jerome Isma-Ae Mix is built more sophisticated: The instrumental theme changes from a resounding tune to a reduced minimal theme at its best and keeps a constant flow that you want to hear until the end.

Comments:

Fantastic!

When the guy who djs for madonna at sold out arenas says that then life is as good as complete! I will update the tetsuo site today all the support comments for this release!

Well done!

Kevin
