Artist: Fred Baker pres.:
Enterprise

Title: Requiem

Release: 15.01.2009

About:

Melody: My Heart and my Soul – this is the trademark of the belgian trance-DJ and producer Frédéric De Backer aka Fred Baker. Already early in 1996 he had his breakthrough with the trance anthem „Mystery Land“, that had been played heavily in Ibiza, headed by guru Paul Oakenfold. Lots of further club anthems and trance monster followed. As a full-blooded trancer, Fred is in good hands at Tetsuo.

Now Fred presents Enterprise with the song “Requiem” exclusively at Tetsuo. Unlike you might think, “requiem” does not contain any sign of darkness, melancholia or sadness. Quite the contrary: Fred’s original attracts by playful and bright synthie-parts, that partly climb higher and higher, accentuated by lower tones. Fred provides an overall harmonious „feel comfortable“-mix with a clean flow. Talla 2XLC removes the playful sound-character and creates a sound-roller with high synthie-tones, a quick beat and piano-parts. Surely, this will lead to sunshiny faces on the dancefloor. Petibonum on the other hand, slims the sound to a 100 % fluffy and cool, lively and laid-back happiness.

TETS 109 contains an extra: The song „Colored Planet“ in the original version. A perfect trance-surround-sound with all ingredients for authentic goose bumps. A kind of „glockenspiel“-tinkling builds the icing on that cake. Check it out.
