

TETS125 Talla 2XLC - The Realm Of India

Artist: Talla 2XLC
Title: The Realm Of India
Release: 25th Nov. 2011

Info:

After hitting the pole position in Trackitdown's trance charts with his powerful anthem "Extravaganza" (feat. Paul Miller) that was released by Paul Oakenfold and supported by the likes of Armin van Buuren Frankfurt-based DJ and producer Talla 2XLC is back on his very own Tetsuo imprint to deliver his fans his latest solo single. "The Realm Of India" is a very special song for Talla because he has been very interested in Indian music and culture for a long time. Being a big fan of Bollywood movies the vocal part of "Tere Liye", the theme song of world famous blockbuster "Veer Zara" starring India's superstar Sharukh Khan, came into Talla's mind. Combining this vocal part with euphoric and uplifting electronic beats he has created a perfect symbiosis of European trance sound and the traditional music of India and he would like to dedicate this hymn also to his more than 8000 Facebook fans from this fascinating country. The second track "Sitara" is a banging and pumping monster with a catchy melody. Be prepared when Talla conquers not only India but the whole world with his unique sound!
