

Tets100 Talla 2XLC vs. Sean Tyas

Artist: Talla 2XLC vs. Sean Tyas

Title: Heart to Heart

Release: February 2008

About:

"On the heels of one of the biggest vocal Trance tracks of 2007 'No In Between', Talla 2XLC is back with a foot stomper, and this time he has brought a friend.

One of the most influential names in dance music, and known throughout the world as one of the original godfathers of Trance music, Talla 2XLC has teamed up with one of the hottest young producers on the planet in the form of Sean Tyas. Together, Talla and Sean have produced their own melodic version of a thank you to the fans in what they call, 'Heart to Heart'.

Both versions are as individual as their creators, yet both carry that undeniable heart felt warmth for their fans, and you just can't help but get up and dance.

Everyone will recognize the driving, thumping elements of Sean Tyas as he carries us away on an epic, melodic, journey that brings us back to earth with his signature baselines.

Talla gives us a brief glimpse of the past as he serves up a very different but brilliant array of melodies, combined with a galloping beat that keeps you going right through to the very end.

Two very different tracks, from two very different worlds, yet both brought together for a 'Heart to Heart' salute to the fans."
